

Why are you trying to regulate XM radio? If we had been happy with the local channels, we would not have purchased XM radio to get the information that we all want and need. In fact, we are a 2 XM radio family! We really appreciate having ALL the channels to choose from. From the financial news, the weather, comedy channels, easy listening music, and traffic information - it is all important and we can have what we need and want when we need and want it! Please - leave XM radio alone!
